

*Both of our children attended St. Paul's Preschool up through the 5 year old program. Each day we went to school was an adventure in fun and learning! The children were embraced by the loving care of the staff. The activities and crafts were so creative. (We still display our preschool artwork during holidays.) The children couldn't wait to go to school and be with their friends and teachers. As parents, we never wanted the experience to end and we still long for those cheerful days watching our kids grow and develop with God's love at St. Paul's.*

*Now that our children are in elementary school, we are even more convinced that those early years prepared them well for what was ahead. When our son received extra high marks on his report card in the "Makes Good Choices" line item, we knew that St. Paul's Preschool was part of that success! As parents, St. Paul's Preschool was definitely one of our "good choices" as well.*

~~~~~

We have been at St. Paul's Preschool for six years, and we love everything about it. The teachers are all very loving and kind, and they really take the time to get to know each child as an individual. Our kids have always been excited to go to preschool in the morning, and at pick up time they can't wait to show us what they've been working on. The school does an excellent job of allowing the children to learn and develop through play, crafts, singing, reading, and fun. St. Paul's has been like a second home for our children, and we feel blessed to have found such a special place for our children to begin school.

"We moved to Chester Springs in the November of 2002. We immediately began a search for a new preschool for our then four year old daughter. As we searched, we heard from several neighbors and friends that we had to check out St. Paul's. I am so glad that we took that advice. Our daughter's experience in the Pre-K program could not have been more perfectly tailored to her needs. Mrs. Venezia was able to meet the needs of each of her students academically, socially and emotionally. Our daughter entered Kindergarten the following fall and was more than prepared in all areas. We were so pleased with our experience that we immediately enrolled our son in the two year old program for the following year. Every aspect of the St. Paul's program was a delightful experience. Our children were fed intellectually, spiritually and emotionally. The caring staff members took time to communicate with us and were responsive to any concerns and questions. I would, without hesitation, recommend St. Paul's." Kathy Collier

*St. Paul's has a very well rounded preschool program focusing on the children and helping them to develop some of the first real friendships of their lives. It is a very caring, loving and nurturing environment to be a part of. David is still close to people he was in preschool with. At 16, he still remembers quite a bit about his time there, including bringing in his favorite books to share with the class, very nice teachers, and making great arts and crafts and having lots of fun on the wonderful playground! He remembers sitting in a circle listening to stories read by his teacher and sharing. When I asked him something he learned he said "social skills". I, personally remember the field trips, they were fun too, and were a different kind of learning tool for the children. Although academics was not the main focus (which made me happy - they have enough of that when they get to school), David was very prepared for kindergarten. Throughout the time of fun, they were also gently learning what they should be to be prepared for their future. Everyone at St. Paul's seemed to work together so nicely and it was a very comfortable, healthy atmosphere. Personally, it was the perfect fit for us and it did give David a great start in life! Thanks! Jane Beard*

"Sending my son to St Paul's Preschool was the best decision that i ever made for him. Everyday that we walked in those doors, i knew that he was being loved and cared for at school just as i love and care for him at home. Not only was he sad to "graduate" from Saint Paul's, but I was as well. My son started out at St Pauls as a very quiet and reserved 4 year old and after 2 years his confidence grew by leaps and bounds. He was, without a doubt, very prepared for elementary school."

St. Paul's is the best. We feel so blessed to have had our two sons attend these past few years. I can't believe I wrote my last St. Paul's preschool check this week. SAD! Thank you for your excellent everything!  
Fondly,  
Jessica and Eric

Our three boys attended St Paul's Preschool and had a wonderful experience!! The teachers were so warm and caring and it was a great first-school experience for all of our boys. The years they had at St. Paul's made the kindergarten transition easy. The pastors have been wonderful over the years and the congregation is so welcoming. We are members of the church, and our boys have great memories of their years at St. Paul's, which began at age three. Jill Dietrich
